OUR STRENGTH

- We have a three-storey state-of-the-art factory, successfully running since 2009, spread across 9,000 sq.ft., situated at Thane- Mankoli, with all CNC machines imported from Germany, Austria and Italy; with skilled staff to give a quality which delights our customers.
- We have our display centres in Dombivali (since 2001) and Thane-Mankoli (since 2009)
- We have an in-house team of architects and interior designers to provide design support to our customers.

**DOOR-STEP
MEASUREMENTS**

**ONESTOP
SOLUTION**

HOW WE DO IT

Our technician visits the site to take exact measurements

**1**

We show various catalogues of materials, finishes and colours to the clients to help them select

**2**

Our designer prepares detailed drawings of each item separately as discussed with the client and as per the technical measurements

**3****4**

Once the client is completely satisfied, they sign each design sheet for giving their approval

A second set of all approved drawings is shared with the client via print or by mail

**5****6**

Another set of drawings is shared to the factory for production
